Powder Metal Gear Pumps and Plates for Hydraulic Applications

Vision Quality Components is a leader in manufacturing of high strength, tight tolerance pump gears and plates.

Powder Metal gears and plates are used in a wide range of industries. Some of which include power transmission in automobiles, off road agricultural equipment, food industry, hydraulic lifts and machine tools.

PM gears are very strong and can be produced to very tight tolerances. PM pump gears will be lower priced as many machining operations are eliminated.

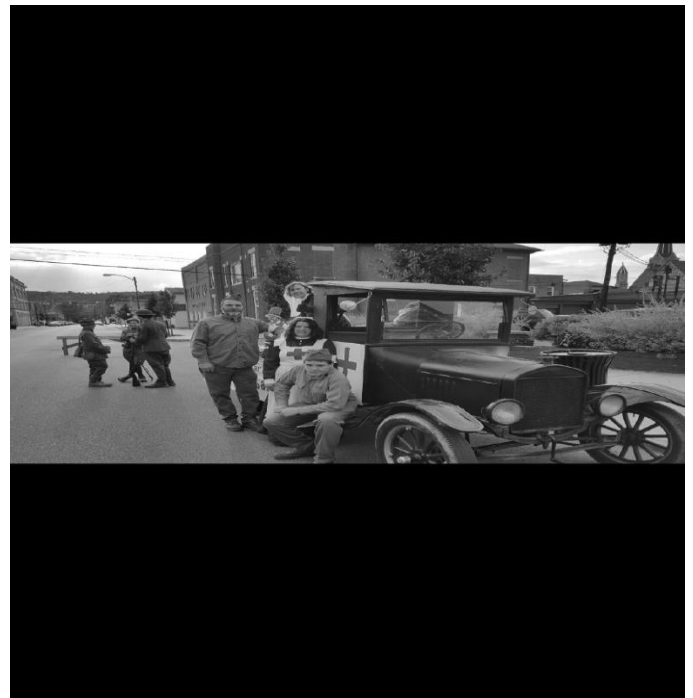

They are capable of producing a gear up to an AGMA Class 8 without further secondary operations. Another cost saving advantage of a PM pump gear is the ID shape – such as a spline, keyway, d-shape or a hex shape does not have to be broached or milled in at a high cost.

Contact us today to see how we can help you save money with Powder Metal hydraulic components.

Vision's Community Involvement

Pictured below are Kelly Kolesar and her family along with Janice Aleksivich participating in the Clearfield County Community Parade. The Clearfield County Historical Society commemorated 100 years since the US entered WWI. The group passed out copies of the local newspaper showing the headline from that date.

Performance Metrics

On Time Delivery Performance

Vision is proud to report a 3rd QTR 2017 on-time delivery performance of 98.29%. Vision will continue to strive to meet all our customer requirements and do our best to ship product on time, every time.

Survey Results

Surveys are sent out each quarter to our customers asking how we are performing as a vendor. The 3rd QTR results show that Vision's customer satisfaction is exceptional. We appreciate our customers taking the time to complete these surveys.

Happy Thanksgiving

Vision will be closed on Thursday and Friday, November 23rd and 24th for the Thanksgiving Holiday. Hoping you and your family have a blessed holiday.

Please contact Lesley Kline if you have any questions at 814-765-1903 or email lkline@visionqci.com.

If you would like more information on Vision Quality Components please view our website (www.visionqci.com) or our video on you tube.
